Hello,

I wish to state my opinion that I am against the proposed settlement of the Microsoft Antitrust case. The monopoly power that MS has over the other competitors in the operating systems market is downright wrong. I have been using personal computers since the late 80's (for, I am only 20 years of age) and know a great deal about the market and how it has been shaped by MS's monopolistic practices. We'll leave the new AOL-Time Warner monopoly alone for now. To save you time in reading my babble, I will agree with the essay written by Dan Kegel at this web address:
